THE SHORT COURSE

MR. HUDELSON DISCUSSED SOILS, MR. ALLISON CATTLE FEEDING.

CLASSES TO BE MERGED

On Wednesday and Sessions Held at Normal—Stock Demonstrations at Gray's.

Tonight's Program.

7:30 p. m.—Lecture: Pruning and Spraying Fruit Trees—E. H. FAVOR, editor of the Fruit Grower and Farmer of St. Joseph. The lecture will be illustrated and will be given in the court house.

Tomorrow's Program.

9-10 a. m.—Legumes and Green Manures—Mr. Douglass. This lecture will consist of a discussion of those legumes best suited to the region and the methods of handling them. It will also include a discussion of the use of such crops as cowpeas, soybeans, etc., as green manures.

10-11 a. m.—Lecture: Essentials for Success with Dairy Cattle—Mr. Brandt.

10-12 a. m.—Lecture: Round Table—Mr. Douglass and Mr. Helm. This round table will include a discussion of the principles underlying crop rotation and the practical application of these principles to the working out of suitable rotations for the particular locality.

1-2 p. m.—Lecture: Silage and Live Stock Feeding—Mr. Allison. This lecture will deal with the production of silage, its use in live stock feeding and its relative value in comparison with other feeds.

2-4 p. m.—Demonstration: Judging Dairy Cattle—Mr. Brandt and Mr. Allison. A special study of type and conformation in dairy cattle, including special indications of large production; breed characteristics.

The two sections of the short course class that was divided for today will be merged on Wednesday and for the rest of the week. All of the day lectures will be held at the Normal, while the stock judging demonstration will be at Gray's sale pavilion.

R. R. Hudelson and S. T. Simpson, two of the university lecturers here, will leave tonight for Columbia. Prof. Brandt, from the state college will arrive Wednesday morning for lecture work on that day.

At the Court House.

Professor H. C. Allison lectured this morning at the court house on the problem of cattle feeding.

"Cattle feeding and the intelligent study of it should be encouraged," said Professor Allison, "since it is one of the most profitable ways of using the farm products right on the farm."

"However, cattle raising should be accompanied by a thorough knowledge of the subject, and of the conditions of the particular locality, or it will probably result disastrously in many instances. The situation is complicated by the constantly fluctuating market prices and the varying prices of feeds. The poorly bred cattle, contrary to the popular belief, will take on weight just about as rapidly as the thoroughbreds. However there is always an appreciable difference in the market price, owing to the finer finish of the pure bred cattle. This means a larger return for the gains produced and a corresponding high price for the initial feeding weight. It is worth while then for the farmer to pay good prices for the finer bred stock. Then in buying feeders it is an established fact that those of greater weight are finished on a narrower margin than those of lighter weight."

The lecture was followed by a short discussion of the subject, using the figures found by the experimental department of the university.

The class was then adjourned to Gray's pavilion, where a demonstration was given in hog judging. Despite the cold weather there was quite a number in attendance, and the many questions which were asked showed that the students are taking much interest in the work.

Morning Session at Normal.

The cold turn in the weather kept the attendance of the Tuesday morning classes down somewhat, but those who did hear R. R. Hudelson's discussion of the soils received some mighty useful information. Mr. Hudelson says that the irrigated land of the western states is not the high producing soil that it is reported to be. Land that is irrigated may produce a good crop the first year, and even the second, but eventually the alkali that

is under the most of that land will come to the top and make the land a poor producer.

"In getting the soil in the proper condition for planting by the application of fertilizer as much depends on the texture of the land as the quality," Mr. Hudelson says.

"Is it necessary to rotate in swamp land?" was asked the instructor, and he answered:

"No, because the overflow serves the same purpose as would rotation; that is, it brings in fertility and does away with the chinch bugs."

From 10 until 12 o'clock T. R. Douglass

T. R. DOUGLASS, One of State College Professors Lecturing at Short Course.

lass discussed corn growing and the different modes of plowing.

Monday Night Session.

"One-third of the dairy cattle of the United States are star boarders," says H. H. Kildee, head of the dairy department of the Ames Agricultural college, who addressed the short course classes Monday night at the court house on the subject of "Dairying." "That is to say, that of the twenty million dairy cattle in the United States but two-thirds of them are a profit to their owners."

By means of lantern slides thrown on the screen Prof. Kildee pointed out the five fundamental qualities of a good dairy cow.

"If the dairyman is selecting a cow he should consider the animal's constitution, circulation, capacity, nervous temperament, and her under conformation," says Kildee, "and then he must keep account of the quantity and quality of the milk produced, the cost of the production and the price maintained by dairy products."

With the Short Course.

Frank Dunning of Bedford, Ia., president of the Citizens bank of Bedford and one of the biggest creamery men in this part of the country, attended Prof. H. H. Kildee's lecture on "Dairying" at the court house Monday night. It was Mr. Dunning who recommended Prof. Kildee to the short course committee.

The attendance at the short course is not what it should be. There were over 500 enrolled for the course for the week, but as yet not even half of them have attended a lecture or stock judging demonstration. It is hoped by the committee that the lectures and demonstrations will be attended, especially by those that are enrolled. It will pay any farmer to attend these lectures.

A number of young men from the neighboring counties are in attendance at the short course. And, by the way, there seems to be many young men present at these lectures and demonstrations.

Omar Catterson will have an exhibition at the stock judging demonstration on Thursday afternoon from 3 to 4 o'clock, several head of his Aberdeen-Angus cattle.

BANQUET FRIDAY NIGHT.

To Be Given at First M. E. Church and Will Close the Short Course Week in Maryville.

The annual banquet of the short course will be given Friday evening at 6:30 o'clock in the basement of the First M. E. church, the dinner to be served by the ladies of that church. W. O. Garrett will preside as toastmaster. A list of the speakers and the program has not as yet been arranged.

The menu that will be served follows: Roast beef, brown gravy, pressed chicken, scalloped oysters, mashed potatoes, peas, hot rolls, pickles, salad, baked apples, coffee, ice cream and cake, fruit, mints. No smoking will be allowed. Tickets for the dinner are on sale now and are 75 cents each.

On Visit to Sister.

Mrs. Alfred Royston and Miss Mina Carmichael went to Kansas City Tuesday morning for a week's visit with their sister, Mrs. Ernest Alden.

SENT OUT MONEY 75 ROAD BILLS

TOWNS IN THE COUNTY ARE TO RECEIVE THEIR SHARE.

FOR MARYVILLE \$379

Foreign Insurance Money Received by County From State is Being Apportioned.

The county court last week ordered that the foreign insurance money received by the county from the state be apportioned among the towns of the county, according to the number of school children. The county received \$2,547.27 from the state, being 31 cents for each one of the 8,149 school children in the county, as shown by the last enumeration.

The towns of the county will receive \$874.30, and the balance of the amount will go to the county for county purposes. The towns that received this money can use it for any purpose. The apportionment among the towns is made on the basis of the school enumeration, 31 cents being paid for each school child.

Maryville will receive \$379.18. Burlington Junction is second with \$75.33, Hopkins third with \$72.85, and Skidmore fourth with \$44.08.

The following are what the towns of the county will receive and their enumeration according to the last one:

	School children	Apportionment
Arkoe	41	\$ 12.83
Barnard	95	29.70
Burlington Junction	241	75.33
Clyde	88	27.51
Conception Junction	106	33.14
Clearmont	79	24.70
Elmo	104	32.51
Guilford	57	17.83
Graham	79	30.33
Hopkins	233	72.85
Maryville	1,213	379.08
Parnell	98	30.64
Pickering	76	23.76
Quitman	66	20.64
Ravenwood	62	19.39
Skidmore	141	44.08
Totals	2,797	\$874.30

ANOTHER DOUBLE-HEADER.

Normals to Play St. Joseph and High School to Play Blanchard at Normal Gym.

Double-header basketball games proved to be such a drawing card last Friday night when a record crowd assembled at the Normal gym for the games with Amity, that the management has arranged for another double-header for next Friday night. The opening tilt will be between the Blanchard, Ia., and Maryville high schools, and the feature bill will be staged by Frank Cassidy's St. Joseph Central high school five and the Normal quintet.

The Iowa team defeated the local highs at Blanchard a couple of weeks ago, and of course the Maryville youths will go into the game to win. The green and white basket ballers triumphed over the St. Joseph team at St. Joseph. The game was the second of the season for the city chaps, and since then they have won laurels galore, Kansas City Central being among the list of the vanquished.

"Button Down Back" Style Must Go Or Else Bigger Buttons for Hubby's Benefit.

(By William Job.)

Jefferson City, Feb. 10.—I have often heard it said that members of the assembly were too well paid for the services rendered. Two years ago when I first came here I was of that opinion for a while, not knowing what was to come, but I soon found out that it took about so long to get organized committees appointed and organized before the real hard work begins. I say hard work, not the kind of hard work that we have on the farm or in the shop, but just as hard.

Senator Craig has introduced twenty-three bills and one point and concurrent resolution up to date that he has to look after, besides the committee work that takes up all the spare time when the assembly is not in session. Besides, the members have their own business to look after, only receiving a salary of \$5.00 per day and after paying out for room and board it only leaves about the wages of a common laborer. I am of the opinion that members of the assembly are the poorest paid officials in the state. After deducting campaign expenses, they are in luck if they have enough left to get their trousers patched. The days of railroad passes and \$1,000 bills have passed, Missouri has had a cleaning up and the members of the assembly are as fine a lot of moral representative men as you could meet anywhere in the world.

There are now some seventy-five road laws before the assembly, if they don't get confused, we may get some good road law. We all want good roads. Some seem to think we can get them without money, but I am afraid of any road law that does not turn the road money into each county in the proportion it deserves. I can see very clearly that any road fund that is not proportioned to each county will be used on a few special roads in the state and very few benefited.

Senator Wilson of Platte county landed his quail bill over the home base after a hard fight of three hours in the senate, and seemed to be as well pleased as if he had landed a \$10,000 job. The old members of the senate have learned long ago, and the new ones are learning that before they come up against Senator Wilson they had better be posted. He deals in facts.

The house Wednesday passed the bill repealing the fire insurance rating law of 1911. It don't seem to be what was wanted. The insurance companies got the best of it. Fire insurance conditions have never been more unsettled than of late. The legislatures of Missouri have put in as much time in years gone by tinkering with fire insurance laws as with road laws. It seems that it don't make much difference what one legislature passes along that line, the next one will repeal it, but they will get it right some day.

A committee of two from the senate and two from the house have been appointed to co-operate with a like committee appointed by the Kansas legislature to investigate the charges of unjust discrimination against shippers by the Kansas City stock yards.

Colonel Phelps' milk bill has been reported favorable, making it a heavy penalty to see cream or milk below the standard now fixed by law.

The senate has passed a bill that goes to the house allowing grand and petit jurors \$3 per day.

There has been a bill introduced in the house that reads as follows:

Be it enacted by the general assembly of the state of Missouri as follows: Section 1. All females in this state are hereby prohibited from wearing any dress, garment, or other apparel buttoned up the back unless such dress, garment, or apparel is equipped with buttons of the size of a quarter of a dollar in United States or Mexican coin; and with button holes sufficiently large to slip easily and quickly over buttons of said size.

Sec. 2. Any female violating the provisions of section 1 of this act shall be guilty of a misdemeanor and shall be punished by a fine of not less than one dollar or more than three dollars, or by imprisonment at hard labor in the kitchen for a period not to exceed (Continued on Page 3)

DIED IN KANSAS.

Body of W. R. Allen, an Old Resident of Guilford, Will Be Buried in the Graves Cemetery Wednesday.

W. R. Allen, an old resident of Guilford, died in Olathe, Kan., Monday, where he went several months ago on a visit to relatives. He was about 63 years old. The body will be brought to Guilford Wednesday and the burial services will take place in the afternoon at the Graves cemetery. Mr. Allen is survived by one son, R. T. Allen of Guilford.

CHARGED WITH STEALING HORSE

Louis Henry Arrested on Monday by Sheriff Ed Wallace—Is Twenty-One Years of Age.

Louis Henry, a young man 21 years old, was arrested Monday afternoon at his home, near Grant City, by Sheriff Ed Wallace, charged with grand larceny. It is alleged that Henry stole a horse valued at \$90 from Simon Ross, in July, 1912. The young man was in the county jail here Tuesday, but efforts will be made for bail. The case will come up at the February term of circuit court.

TO HELP ROAD FUND

CRAIG INTRODUCED BILL TO RE-APPROPRIATE \$1,339 TO COUNTY.

WOMEN ARE ELIGIBLE

For Membership on School Boards by Craig's Bill—Apply to All Schools Except St. Louis.

Senator Anderson Craig introduced bills at Jefferson City this week to re-appropriate to Nodaway and Gentry counties the money they failed to draw from the automobile fund for 1911 and 1912. Nodaway county had \$1,339.05 coming and Gentry county had \$1,197.82 coming. If this money is received it will go to the county road fund.

Senator Craig, in writing to The Democrat-Forum, says:

"It looks like the Carter bill making an equal distribution of the general road fund among all counties of the state will pass. This will be unfortunate for Nodaway county."

In Friday's issue of this paper it was stated that Senator Craig's bill making women eligible to membership on school boards had been amended by the committee, making it apply only to country schools. This was a mistake and there are three of these bills they apply to all of the schools, state except St. Louis. They have been engrossed and are on the calendar for third reading.

THE CANDY KIDS WON.

In Bowling Tournament at Yeo Alleys Last Games Were Played Monday Night.

The New York Candy Kitchen team, the Candy Kids, won in the bowling tournament which has been on at the Yeo alleys for the past few weeks. They won by one game over the Field-Lippman team.

In the last game played Monday night the Field-Lippman team won two games out of three from the Toggery team. Schumacher had high score of 200, also high average of 517 for three games.

After the game Monday, and being the last one in the tournament, supper was served at Hiner's cafe to all of the teams in the tournament.

Moore Funeral Tuesday.

Mrs. J. M. Woodard and Miss Louella Moore of Pueblo, Col., and Sylvester Moore of Kansas City arrived in Maryville Monday night with the body of John Moore, the father of Mrs. Woodard and Mr. Moore, for burial here. The funeral services were held Tuesday afternoon in the undertaking parlors of the Maryville Furniture company and were conducted by Rev. Claude J. Miller of the First Christian church. The G. A. R. post of which the deceased was a member attended in a body and the burial services at Miriam cemetery were conducted by the post.

EGGS SECOND BEST.

150,000,000 Dozen Are Produced in Missouri Each Year.

The hens of Missouri produce enough eggs to give every person in the state one and a half to eat each day. That means that the cackle of the hen is heard in the state 150,000,000 dozen times each year, providing she cackles every time she produces an egg, says the University Missourian.

Twenty-two million dozen eggs were marketed in Missouri in 1911. It is estimated from this that there were probably 150,000,000 dozen eggs produced in the year, which means more than forty-five dozens to each person, about 540 eggs a year, or about an egg and a half a day.

Perhaps the hen should be the emblem of Missouri instead of the mule. The corn crop is the only one more valuable in the state than poultry. This is a natural chicken country, yet the raising of chickens is not a regular business of the Missouri farmer, but in nearly all cases an adjunct to the farm.

The middle west is the only section of the United States that regularly produces more eggs than it consumes. There are in this state almost one hundred car load shippers of eggs.

H. L. Kempster, professor of poultry husbandry, has just received word from the United States department of agriculture that the chief of the food research laboratory is planning to establish a field station at Sedalia to work all over the state with the producers and sellers of poultry and eggs to show them how to improve their products. Thus the farmer will get a better price for his chickens and eggs, and the consumer will get better poultry products at a lower price, relatively.

The Black Cat Club Meeting.

The Black Cat club met at the home of two of its members Monday evening in a delightful session. The house was decorated in black cats in all shapes and sizes, and tally cards of black cats were also used. This club is practically new, this being only the third meeting, is strictly a ladies' affair, and its membership is unknown. One guest was present at Monday night's meeting and carried off the game prize. One of the members won the club prize. The hostesses served a delicious Welsh rarebit, salad, sandwiches and coffee, and this was presided over by black cats, also. At a late hour the members scooted out into the darkness, unafraid, down alleys and over fences to their homes, heard and seen by no one, not having been missed by the folks of their own fireside, and are purring with satisfaction and content over the good time they had.

"CASCARETS" FOR A SICK, SOUR STOMACH

Geenly But Thoroughly Cleanse and Regulate Your Stomach, Liver and Bowels While You Sleep.

That awful sourness, belching of acid and foul gases; that pain in the pit of the stomach, the heartburn, nervousness, nausea, bloating after eating, feeling of fullness, dizziness and sick headache, means a disordered stomach, which cannot be regulated until you remove the cause. It isn't your stomach's fault. Your stomach is as good as any.

Try Cascarets; they immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the intestines and bowels. Then your stomach trouble is ended. A Cascaret tonight will straighten you out by morning—a 10-cent box from any drug store will keep your stomach sweet; liver and bowels regular for months. Don't forget the children—their little insides need a good, gentle cleansing, too.—Advertisement.

DIAZ FAILS TO STORM PALACE

Insurgent General Remains Fortified in Federal Arsenal.

ISSUE OF OUTBREAK UNCERTAIN

Both Sides Slow to Resume Fighting in Mexican Rebellion—Rebels Have Reinforcements From Two Sources in Sight—Peace Negotiations Started

Mexico City, Feb. 11.—General Felix Diaz, whose bold stroke almost overthrew the Madero administration, is holding his army in leash. Nor did the scattered government forces dare to attack him in his fortified positions in and about the arsenal.

Still hoping that he might obtain complete control without further loss of life or destruction of property, General Diaz surprised the capital by refraining from turning his heavy guns upon the national palace.

The government's position has not been altered materially, although a few of General Blanquet's soldiers—not more than 500—have arrived and a small detachment of rurales has ridden into the city. The forces of General Diaz were not materially augmented either, but the proximity of the Zapatistas and the promised early arrival of rebels from the state of Vera Cruz, under Gaudencia de la Llave, appear to have strengthened his hand.

General Diaz gradually is widening the zone he controls. He extended his picket line. Some of those who still have faith in the power of the government profess to see in the dilatoriness of Diaz a weakness which will result in his being crushed or starved into submission.

Unless, however, the government is able to persuade what are undoubtedly reluctant elements to rally, Diaz with superior artillery should be able to resist any attack.

Negotiations for Peace.

That peace negotiations, official and otherwise, were in progress became known, but owing to the secrecy enveloping them few outside the principals knew the details.

The killing of General Bernardo Reyes, former minister of war, had a tragic sequence in the suicide of his son, Rodolfo. The younger Reyes shot himself through the head because of grief over his father's death.

President Madero is back in the national palace, and Senora Madero is in Chapultepec castle.

It is admitted at the national palace that General Blanquet has been prevented from reaching the city by the cutting of the railroad between the capital and Toluca.

JAPANESE PREMIER STONED

Six Killed and Sixty-five Injured in Political Rioting.

Tokyo, Feb. 11.—Six persons were killed and sixty-five seriously injured in the political rioting here. The situation is serious.

Mobs attacked the offices of the bureaucratic newspapers and threatened the dwellings of the ministers. They burned and wrecked police stations, tram cars and private buildings. Detachments of troops patrol the streets. Each newspaper office is protected by a guard of fifty soldiers, to whom ball cartridges have been served.

As the premier was returning from his visit to the emperor he was stoned and slightly injured. The mob then turned to assaults on newspaper offices. Several policemen and civilians were badly injured. One of the mob leaders was killed.

The emperor has asked Marquis Sainonji to form a cabinet.

SIXTEEN DIE IN STRIKE FIGHT

Desperate Battle Fought in West Virginia Coal Fields.

Charleston, W. Va., Feb. 11.—Sixteen are dead, including twelve miners and four mine guards, as the result of a desperate battle in the Kanawha county coal fields.

Pive companies of state militia have reached the troubled zone.

The most serious clash of the mine trouble in West Virginia occurred near Mucklow. Fred W. Lester, in charge of mine guards, sought to head off several hundred strikers attempting to gain a position from which they could fire on the town of Mucklow. In this skirmish two of the officers were shot dead. Reinforcements appeared and a constant guerrilla warfare was kept up. The guards steadily were driven back. With the arrival of the militia rioting ceased.

MONTENEGRINS TAKE HILL

Turks Are Driven From Fort Commanding Scutari.

Podgoritz, Montenegro, Feb. 11.—The Montenegrin army besieging the Turkish fortress of Scutari carried the great Bardanioli hill by assault after several hours of severe fighting.

The Montenegrins lost 2,500 men killed and wounded. The Turks lost 4,000 men, dead and wounded, on the field of battle.

The rout of the Turkish army before Bulair is said to have been complete. The Turks are reported to have suffered enormous losses.

Overland \$985

F. O. B. TOLEDO, O.

It's Worth More than it Costs You

OF COURSE you admit the value of the automobile for any one who has to go from one place to another—and wants to get there and back quickly. We all agree on that point.

The cost of the automobile is what is worrying you, maybe.

You wonder is it worth the money—to you.

Have you ever noticed that when a man buys an automobile, and, after using it, either in his business or for pleasure, or for both, sells it, always buys another one?

Yes? Well, that's the answer.

Buy an automobile, find out that its price is an investment rather than an expense, and you can't do without it. You wouldn't want to.

Because you will have found that the car is worth more to you than it cost you, that it has added to your capacity of doing business, that it made one hour do the

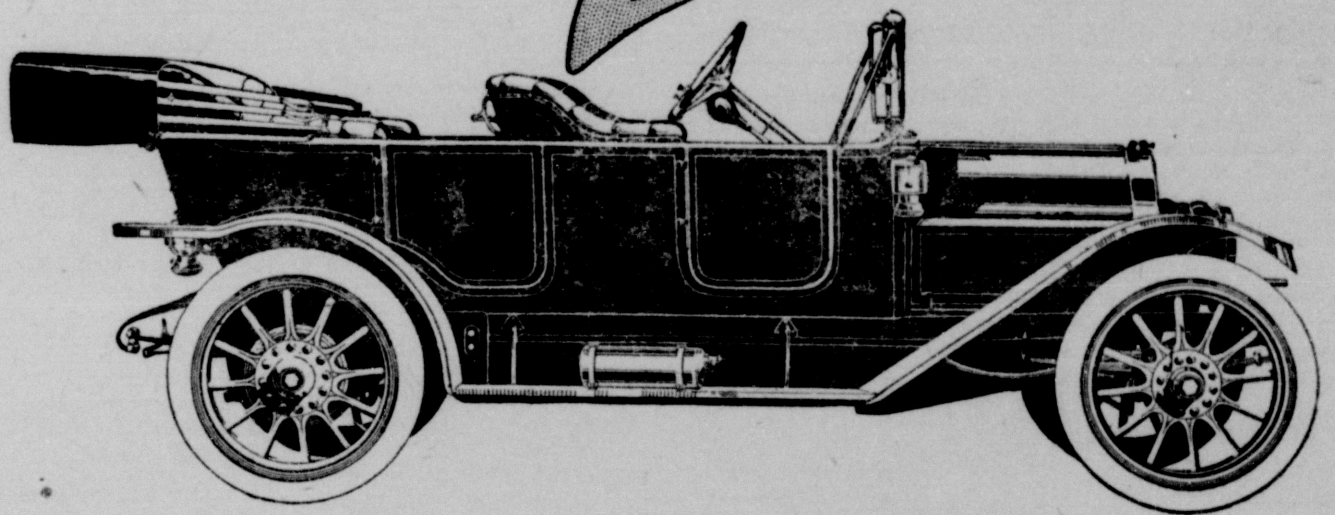

work of three, that the store, the theatre, the folks ten miles away, have suddenly become your next-door neighbors, that it has given a store of health to you and your family.

Which automobile?

The Overland—because it is the best value that money can buy.

Whatever your notions are as to what an automobile should be to do justice to your requirements, whether you value power, comfort, impressive appearance, low cost of upkeep, or the kind of durability—Overland durability—that makes the possession of a car a source of downright satisfaction, you can't afford to consider any automobile without first investigating the new Overland.

At least come and take a look at it. Compare it with others. Let us give you a ride in the big, fully equipped Overland; it involves no obligation on your part. Then draw your own conclusions.—That's all.

Rev. Harkness on Lincoln.

A large audience was present at the First Presbyterian church Sunday night and heard a most eloquent sermon by the pastor, Rev. S. D. Harkness, on "Abraham Lincoln." It was an inspiring review of the great martyr's life and showed plainly how God led him all the way, from the very cradle through a maze of brambles and thorns, along rocky roads and through stone walls to the place he had made for him in saving a nation.

The Most Effective Valentine

Beautiful, blooming flowers are far more in keeping with the tender sentiments of St. Valentine's Day than any expression in any other form. Nothing expresses the spirit of the day so perfectly, nothing you can send your sweetheart or wife which will convey tenderness, love and affection so well, for "Flowers are lovely, love is flowerlike." Of all the missives she receives throughout the day none will win her favor so much as Flowers from Engelmann's. We offer an especially nice selection of fresh cut violets, sweet peas, lily of the valley, roses, carnations, etc., and beautiful potted plants, all very attractively arranged for St. Valentine's Day at very reasonable prices. Mail orders promptly attended to.

WITH the ordinary typewriter the day's work usually begins to tire the operator by three o'clock; the constant strike, strike, strike on the usual heavy-touch machine shows its fatiguing effect in mid-afternoon. But when the operator has the advantage of

Monarch *Light Touch*

there is neither *three o'clock fatigue* nor *closing hour fatigue*. The Monarch operator doesn't hammer the keys, she *touches* them. The mechanical principle exclusively incorporated in the Monarch completes the impression. A feathery touch *starts* it—therefore strength isn't called for and fatigue doesn't follow.

Letters written on the Monarch Typewriter are uniform in spacing, alignment and color.

In addition to the Monarch Light Touch, and the exclusive Monarch Rigid Carriage feature, every other important improvement of the modern typewriting machine, such as Back Space Key, Two-Color Ribbon Shift, Contained Tabulator, etc., will also be found in the Monarch. Let us demonstrate Monarch economy of strength, time and money.

WEBB LIQUOR BILL PASSED

Senate Adopts Measure Already Passed by the House.

SUBSTITUTE FOR KENYON ACT

Senator Hitchcock's Amendment Excepting Liquor Intended for Personal Use From Terms of Measure Is Voted Down.

Washington, Feb. 11.—The senate passed the Webb liquor bill, already passed by the house, as a substitute for the Kenyon-Sheppard bill.

The Webb bill would prohibit shipments of intoxicating liquors from one state to another when intended to be received or sold in violation of the law of the state to which shipment is made.

Friends of the legislation now will seek to have the house concur in the senate bill, which differs from the bill passed by the house only in number. Should that be done the bills would not be considered in conference, but the bill passed by the senate would go to the president for his signature.

The substitution of the Webb bill for the Kenyon-Sheppard bill came at the close of prolonged debate, and was by vote 61 to 33, no roll call being demanded.

Senator Sheppard had failed to get unanimous consent for the substitution of the Webb act for the bill of which he was a joint author. Senator Kenyon, co-author of the senate bill, closed the debate by asking that the Webb bill be substituted as the order of the day did not permit the voting on the Webb bill as an independent measure.

Amendment Accepted.

The voting was first on the perfection of the Kenyon-Sheppard bill. By a vote of 61 to 33 the senate agreed to the committee amendment adding a section to the bill which provided that intoxicating liquors should become subject to state laws upon crossing state boundaries.

Senator Hitchcock's amendment to except liquor intended for personal use was defeated without a roll call, and one by Senator O'Gorman to except liquor intended for personal or sacramental use likewise was defeated by 31 to 50. Senator Kenyon succeeded in having his measure amended to become operative July 31, 1913. Thereupon Senator Gallinger asked for the substitution of the Webb bill for the senate measure. He likewise succeeded in having the title amended so as to bring the houses in accord except as to the number of bills.

RECLAMATION SERVICE HIT

House Committee Finds Huge Fraud in Western Irrigation Projects.

Washington, Feb. 11.—A drastic indictment of the reclamation service of the national government on the charge of gross maladministration and inefficiency is contained in a report of the house committee on expenditures in the interior department. It is charged the government stands to lose more than \$100,000,000 on irrigation projects under way.

The report accuses government officials with having manipulated the construction of the Roosevelt dam and Salt river and the Gila river irrigation projects in Arizona to the detriment of the small farmer and the Indians and to the great profit of the land speculators, millionaire ranchmen, the Southern Pacific railroad and a Phoenix electric company.

Collusion between government officials and representatives of these wealthy interests is charged. The house is asked to appropriate \$25,000 for an inquiry.

Samuel Adams of Chicago, assistant secretary of the interior; Director Newell, and Supervising Engineer Lewis C. Hill of the reclamation service are severely criticised for decisions relating to the administration of the Arizona projects. The committee recommends that the president remove them from office pending the investigation, "to prevent possible obstruction of our progress by these officials."

Banker Charged With Contempt

Washington, Feb. 11.—George J. Henry of New York, member of Solomon & Co., bankers, was indicted by the federal grand jury for contempt of a congressional committee, for refusing to tell the house money trust investigators the names of twenty-four bank officers who participated with profit in a syndicate operation in California petroleum stock. A bench warrant for his arrest was issued.

Milk Company Fined for Raising Price

Minneapolis, Feb. 11.—The Minneapolis Milk company and A. R. Ruhnke its president, were fined \$3,000 each in the district court. The corporation and Mr. Ruhnke were convicted last week of having conspired with thirteen other firms and dealers to raise the price of milk in Minneapolis from 7 cents to 8 cents a quart in violation of the state anti-trust law.

SHE GAVE UP ALL HOPE

Physicians Failed To Help Mrs. Green, But She Finally Found Relief in Cardul.

Meets, Va.—Mrs. J. C. Green of this place, says: "I suffered with womanly troubles so that I could hardly sit up. Two of the best doctors in our town treated me, and I tried different medicines, until I gave up all hope of ever getting well."

One day, I decided to try some Cardul. It did so much for me that I ordered some more, and it cured me! Today, I feel as well as I ever did in my life.

The pains and the trouble are all gone. I feel like another person in every way. I wish every sufferer could know what Cardul will do for sick women."

A few doses of Cardul at the right time, will save many a big doctor bill, by preventing serious sickness.

It tones up the nervous system, and helps make pale cheeks fresh and rosy. Thousands of weak women have been restored to health and happiness by using Cardul. Suppose you try it. It may be just the medicine you need.

THE SHORT COURSE

MR. HUELSON DISCUSSED SOILS, MR. ALLISON CATTLE FEEDING.

CLASSES TO BE MERGED

On Wednesday and Sessions Held at Normal—Stock Demonstrations at Gray's.

Tonight's Program.

7:30 p. m.—Lecture: Pruning and Spraying Fruit Trees—E. H. Favor, editor of the Fruit Grower and Farmer of St. Joseph. The lecture will be illustrated and will be given in the court house.

Tomorrow's Program.

9-10 a. m.—Legumes and Green Manures—Mr. Douglass. This lecture will consist of a discussion of those legumes best suited to the region and the methods of handling them. It will also include a discussion of the use of such crops as cowpeas, soybeans, etc., as green manures.

10-11 a. m.—Lecture: Essentials for Success with Dairy Cattle—Mr. Brandt. 10-12 a. m.—Lecture: Round Table—Mr. Douglass and Mr. Helm. This round table will include a discussion of the principles underlying crop rotation and the practical application of these principles to the working out of suitable rotations for the particular locality.

1-2 p. m.—Lecture: Silage and Live Stock Feeding—Mr. Allison. This lecture will deal with the production of silage, its use in live stock feeding and its relative value in comparison with other feeds.

2-4 p. m.—Demonstration: Judging Dairy Cattle—Mr. Brandt and Mr. Allison. A special study of type and conformation in dairy cattle, including special indications of large production; breed characteristics.

The two sections of the short course class that was divided for today will be merged on Wednesday and for the rest of the week. All of the day lectures will be held at the Normal, while the stock judging demonstration will be at Gray's sale pavilion.

R. R. Hudelson and S. T. Simpson, two of the university lecturers here, will leave tonight for Columbia. Prof. Brandt, from the state college will arrive Wednesday morning for lecture work on that day.

At the Court House.

Professor H. C. Allison lectured this morning at the court house on the problem of cattle feeding.

"Cattle feeding and the intelligent study of it should be encouraged," said Professor Allison, "since it is one of the most profitable ways of using the farm products right on the farm."

"However, cattle raising should be accompanied by a thorough knowledge of the subject, and of the conditions of the particular locality, or it will probably result disastrously in many instances. The situation is complicated by the constantly fluctuating market prices and the varying prices of feeds. The poorly bred cattle, contrary to the popular belief, will take on weight just about as rapidly as the thoroughbreds. However there is always an appreciable difference in the market price, owing to the finer finish of the pure bred cattle. This means a larger return for the gains produced and a corresponding high price for the initial feeding weight. It is worth while then for the farmer to pay good prices for the finer bred stock. Then in buying feeders it is an established fact that those of greater weight are finished on a narrower margin than those of lighter weight.

The lecture was followed by a short discussion of the subject, using the figures found by the experimental department of the university.

The class was then adjourned to Gray's pavilion, where a demonstration was given in hog judging. Despite the cold weather there was quite a number in attendance, and the many questions which were asked showed that the students are taking much interest in the work.

Morning Session at Normal.

The cold turn in the weather kept the attendance of the Tuesday morning classes down somewhat, but those who did hear R. R. Hudelson's discussion of the soils received some mighty useful information. Mr. Hudelson says that the irrigated land of the western states is not the high producing soil that it is reported to be. Land that is irrigated may produce a good crop the first year, and even the second, but eventually the alkali that

is under the most of that land will come to the top and make the land a poor producer.

"In getting the soil in the proper condition for planting by the application of fertilizer as much depends on the texture of the land as the quality," Mr. Hudelson says.

"Is it necessary to rotate in swamp land?" was asked the instructor, and he answered:

"No, because the overflow serves the same purpose as would rotation; that is, it brings in fertility and does away with the chinch bugs."

From 10 until 12 o'clock T. R. Douglass.

T. R. DOUGLASS, One of State College Professors Lecturing at Short Course.

Class discussed corn growing and the different modes of plowing.

Monday Night Session.

"One-third of the dairy cattle of the United States are star boarders," says H. H. Kildee, head of the dairy department of the Ames Agricultural college, who addressed the short course classes Monday night at the court house on the subject of "Dairying." "That is to say, that of the twenty million dairy cattle in the United States but two-thirds of them are a profit to their owners."

By means of lantern slides thrown on the screen Prof. Kildee pointed out the five fundamental qualities of a good dairy cow.

"If the dairyman is selecting a cow he should consider the animal's constitution, circulation, capacity, nervous temperament, and her under conformation," says Kildee, "and then he must keep account of the quantity and quality of the milk produced, the cost of the production and the price maintained by dairy products."

With the Short Coursers.

Frank Dunning of Bedford, Ia., president of the Citizens bank of Bedford and one of the biggest creamery men in this part of the country, attended Prof. H. H. Kildee's lecture on "Dairying" at the court house Monday night. It was Mr. Dunning who recommended Prof. Kildee to the short course committee.

The attendance at the short course is not what it should be. There were over 500 enrolled for the course for the week, but as yet not even half of them have attended a lecture or stock judging demonstration. It is hoped by the committee that the lectures and demonstrations will be attended, especially by those that are enrolled. It will pay any farmer to attend these lectures.

A number of young men from the neighboring counties are in attendance at the short course. And, by the way, there seems to be many young men present at these lectures and demonstrations.

Omar Catterson will have an exhibition at the stock judging demonstration on Thursday afternoon from 3 to 4 o'clock, several head of his Aberdeen-Angus cattle.

BANQUET FRIDAY NIGHT.

To Be Given at First M. E. Church and Will Close the Short Course Week in Maryville.

The annual banquet of the short coursers will be given Friday evening at 6:30 o'clock in the basement of the First M. E. church, the dinner to be served by the ladies of that church. W. O. Garrett will preside as toastmaster. A list of the speakers and the program has not as yet been arranged.

The menu that will be served follows: Roast beef, brown gravy, pressed chicken, escalloped oysters, mashed potatoes, peas, hot rolls, pickles, salad, baked apples, coffee, ice cream and cake, fruit, mints. No smoking will be allowed. Tickets for the dinner are on sale now and are 75 cents each.

On Visit to Sister.

Mrs. Alfred Royston and Miss Mina Carmichael went to Kansas City Tuesday morning for a week's visit with their sister, Mrs. Ernest Alden.

TOWNS IN THE COUNTY ARE TO RECEIVE THEIR SHARE. LEGISLATORS HAVE BIG JOBS FOR ONLY FIVE DOLLARS A DAY.

FOR MARYVILLE \$379 SHOT AT WOMAN'S DRESS

Foreign Insurance Money Received by County From State is Being Apportioned. "Button Down Back" Style Must Go Or Else Bigger Buttons for Hubby's Benefit.

The county court last week ordered that the foreign insurance money received by the county from the state be apportioned among the towns of the county, according to the number of school children. The county received \$2,547.27 from the state, being 31 cents for each one of the 8,149 school children in the county, as shown by the last enumeration.

The towns of the county will receive \$874.30, and the balance of the amount will go to the county for county purposes. The towns that received this money can use it for any purpose. The apportionment among the towns is made on the basis of the school enumeration, 31 cents being paid for each school child.

Maryville will receive \$379.18. Burlington Junction is second with \$75.33, Hopkins third with \$72.83, and Skidmore fourth with \$44.08.

The following are what the towns of the county will receive and their enumeration according to the last one:

	School children.	Apportionment

ANOTHER DOUBLE-HEADER.

Normals to Play St. Joseph and High School to Play Blanchard at Normal Gym.

Double-header basket ball games proved to be such a drawing card last Friday night when a record crowd assembled at the Normal gym for the games with Amity, that the management has arranged for another double-decker for next Friday night. The opening tilt will be between the Blanchard, Ia., and Maryville high schools, and the feature bill will be staged by Frank Cassidy's St. Joseph Central high school five and the Normal quintet.

The Iowa team defeated the local highs at Blanchard a couple of weeks ago, and of course the Maryville youths will go into the game to win. The green and white basket ballers triumphed over the St. Joseph team at St. Joseph. The game was the second of the season for the city chaps, and since then they have won laurels galore, Kansas City Central being among the list of the vanquished.

TOHELPROADFUND

CRAIG INTRODUCED BILL TO RE-APPROPRIATE \$1,339 TO COUNTY.

WOMEN ARE ELIGIBLE

For Membership on School Boards by Craig's Bill—Apply to All Schools Except St. Louis.

Senator Anderson Craig introduced bills at Jefferson City this week to re-appropriate to Nodaway and Gentry counties the money they failed to draw from the automobile fund for 1911 and 1912. Nodaway county had \$1,339.95 coming and Gentry county had \$1,197.82 coming. If this money is received it will go to the county road fund.

Senator Craig, in writing to The Democrat-Forum, says:

"It looks like the Carter bill making an equal distribution of the general road fund among all counties of the state will pass. This will be unfortunate for Nodaway county."

In Friday's issue of this paper it was stated that Senator Craig's bill making women eligible to membership on school boards had been amended by the committee, making it apply only to country schools. This was a mistake and there are three of these bills they apply to all of the schools, state except St. Louis. They have been engrossed and are on the calendar for third reading.

THE CANDY KIDS WON.

In Bowling Tournament at Yeo Alleys—Last Games Were Played Monday Night.

The New York Candy Kitchen team, the Candy Kids, won in the bowling tournament which has been on at the Yeo alleys for the past few weeks. They won by one game over the Field-Lippman team.

In the last game played Monday night the Field-Lippman team won two games out of three from the Toggery team. Schumacher had high score of 200, also high average of 517 for three games.

After the game Monday, and being the last one in the tournament, supper was served at Blinter's cafe to all of the teams in the tournament.

Moore Funeral Tuesday.

Mrs. J. M. Woodard and Miss Louella Moore of Pueblo, Col., and Sylvester Moore of Kansas City arrived in Maryville Monday night with the body of John Moore, the father of Mrs. Woodard and Mr. Moore, for burial here. The funeral services were held Tuesday afternoon in the undertaking parlors of the Maryville Furniture company and were conducted by Rev. Claude J. Miller of the First Christian church. The G. A. R. post of which the deceased was a member attended in a body and the burial services at Miriam cemetery were conducted by the post.

EGGS SECOND BEST.

150,000,000 Dozen Are Produced in Missouri Each Year.

The hens of Missouri produce enough eggs to give every person in the state one and a half to eat each day. That means that the cackle of the hen is heard in the state 150,000,000 dozen times each year, providing she cackles every time she produces an egg, says the University Missourian.

Twenty-two million dozen eggs were marketed in Missouri in 1911. It is estimated from this that there were probably 150,000,000 dozen eggs produced in the year, which means more than forty-five dozens to each person, about 540 eggs a year, or about an egg and a half a day.

Perhaps the hen should be the emblem of Missouri instead of the mule. The corn crop is the only one more valuable in the state than poultry. This is a natural chicken country, yet the raising of chickens is not a regular business of the Missouri farmer, but in nearly all cases an adjunct to the farm.

The middle west is the only section of the United States that regularly produces more eggs than it consumes. There are in this state almost one hundred car load shippers of eggs.

H. L. Kempster, professor of poultry husbandry, has just received word from the United States department of agriculture that the chief of the food research laboratory is planning to establish a field station at Sedalia to work all over the state with the producers and sellers of poultry and eggs to show them how to improve their products. Thus the farmer will get a better price for his chickens and eggs, and the consumer will get better poultry products at a lower price, relatively.

The Black Cat Club Meeting.

The Black Cat club met at the home of two of its members Monday evening in a delightful session. The house was decorated in black cats in all shapes and sizes, and tally cards of black cats were also used. This club is practically new, this being only the third meeting, is strictly a ladies' affair, and its membership is unknown. One guest was present at Monday night's meeting and carried off the game prize. One of the members won the club prize. The hostesses served a delicious Welsh rarebit, salad, sandwiches and coffee, and this was presided over by black cats, also. At a late hour the members scooted out into the darkness, unafraid, down alleys and over fences to their homes, heard and seen by no one, not having been missed by the folks of their own fireside, and are purring with satisfaction and content over the good time they had.

**"CASCARETS" FOR A
SICK, SOUR STOMACH**

Gently But Thoroughly Cleanse and
Regulate Your Stomach, Liver and
Bowels While You Sleep.

That awful sourness, belching of
acid and foul gases; that pain in the
pit of the stomach, the heartburn,
nervousness, nausea, bloating after
eating, feeling of fullness, dizziness
and sick headache, means a disor-
dered stomach, which cannot be regu-
lated until you remove the cause. It
isn't your stomach's fault. Your
stomach is as good as any.

Try Cascarets; they immediately
cleanse and regulate the stomach, re-
move the sour, undigested and fer-
menting food and foul gases; take the
excess bile from the liver and carry
off the constipated waste matter and
poison from the intestines and bow-
els. Then your stomach trouble is
ended. A Cascaret tonight will
straighten you out by morning—a 10-
cent box from any drug store will
keep your stomach sweet, liver and
bowels regular for months. Don't for-
get the children—their little insides
need a good, gentle cleansing, too.—

**DIAZ FAILS TO
STORM PALACE**

Insurgent General Remains For-
tified in Federal Arsenal.

ISSUE OF OUTBREAK UNCERTAIN

Both Sides Slow to Resume Fighting
in Mexican Rebellion—Rebels Have
Reinforcements From Two Sources
in Sight—Peace Negotiations Started

Mexico City, Feb. 11.—General Felix
Diaz, whose bold stroke almost over-
threw the Madero administration, is
holding his army in leash. Nor did
the scattered government forces dare
to attack him in his fortified positions
in and about the arsenal.

Still hoping that he might obtain
complete control without further loss
of life or destruction of property, Gen-
eral Diaz surprised the capital by re-
fraining from turning his heavy guns
upon the national palace.

The government's position has not
been altered materially, although a
few of General Blanquet's soldiers—
not more than 500—have arrived and a
small detachment of rurales has rid-
den into the city. The forces of Gen-
eral Diaz were not materially aug-
mented either, but the proximity of
the Zapatistas and the promised early
arrival of rebels from the state of
Veracruz, under Gaudencia de la
Llave, appear to have strengthened his
hand.

General Diaz gradually is widening
the zone he controls. He extended his
picket line. Some of those who still
have faith in the power of the gov-
ernment profess to see in the dilatori-
ness of Diaz a weakness which will re-
sult in his being crushed or starved
into submission.

Unless, however, the government is
able to persuade what are undoubtedly
reluctant elements to rally, Diaz with
superior artillery should be able to
resist any attack.

Negotiations for Peace.

That peace negotiations, official and
otherwise, were in progress became
known, but owing to the secrecy en-
veloping them few outside the principals
knew the details.

The killing of General Bernardo
Reyes, former minister of war, had a
tragic sequence in the suicide of his
son Rodolfo. The younger Reyes shot
himself through the head because of
grief over his father's death.

President Madero is back in the na-
tional palace, and Senora Madero is
in Chapultepec castle.

It is admitted at the national pa-
lace that General Blanquet has been
prevented from reaching the city by
the cutting of the railroad between
the capital and Toluca.

JAPANESE PREMIER STONED

Six Killed and Sixty-five Injured in
Political Rioting.

Tokyo, Feb. 11.—Six persons were
killed and sixty-five seriously injured
in the political rioting here. The situ-
ation is serious.

Mobs attacked the offices of the bu-
reaucrate newspapers and threatened
the dwellings of the ministers. They
burned and wrecked police stations,
tram cars and private buildings. De-
tachments of troops patrol the streets.
Each newspaper office is protected by
a guard of fifty soldiers, to whom all
cartridges have been served.

As the premier was returning from
his visit to the emperor he was stoned
and slightly injured. The mob then
turned to assaults on newspaper of-
fices. Several policemen and civilians
were badly injured. One of the mob
leaders was killed.

The emperor has asked Marquis
Sainonji to form a cabinet.

SIXTEEN DIE IN STRIKE FIGHT

Desperate Battle Fought in West Vir-
ginia Coal Fields.

Charleston, W. Va., Feb. 11.—Six-
teen are dead, including twelve miners
and four mine guards, as the result of
a desperate battle in the Kanawha
county coal fields.

Five companies of state militia have
reached the troubled zone.

The most serious clash of the mine
trouble in West Virginia occurred near
Mucklow. Fred W. Lester, in charge
of mine guards, sought to head off
several hundred strikers attempting to
gain a position from which they could
fire on the town of Mucklow. In this
skirmish two of the officers were shot
dead. Reinforcements appeared and a
constant guerrilla warfare was kept
up. The guards steadily were driven
back. With the arrival of the militia
rioting ceased.

MONTENEGRINS TAKE HILL

Turks Are Driven From Fort Com-
manding Scutari.

Podgoritz, Montenegro, Feb. 11.—
The Montenegrin army besieging the
Turkish fortress of Scutari carried the
great Bardanbell hill by assault after
several hours of severe fighting.

The Montenegrins lost 2,500 men in
killed and wounded. The Turks lost
4,000 men, dead and wounded, on the
field of battle.

The rout of the Turkish army be-
fore Bulair is said to have been com-
plete. The Turks are reported to have
suffered enormous losses.

Overland \$985

**It's Worth More
than it Costs You**

OF COURSE you admit the value of the automo-
bile for any one who has to go from one place
to another—and wants to get there and back
quickly. We all agree on that point.

The cost of the automobile is what is worrying
you, maybe.

You wonder is it worth the money—to you.

Have you ever noticed that when a man buys an
automobile, and, after using it, either in his business or
for pleasure, or for both, sells it, always buys another
one?

Yes? Well, that's the answer.

Buy an automobile, find out that its price is an
investment rather than an expense, and you can't do
without it. You wouldn't want to.

Because you will have found that the car is worth
more to you than it cost you, that it has added to your
capacity of doing business, that it made one hour do the

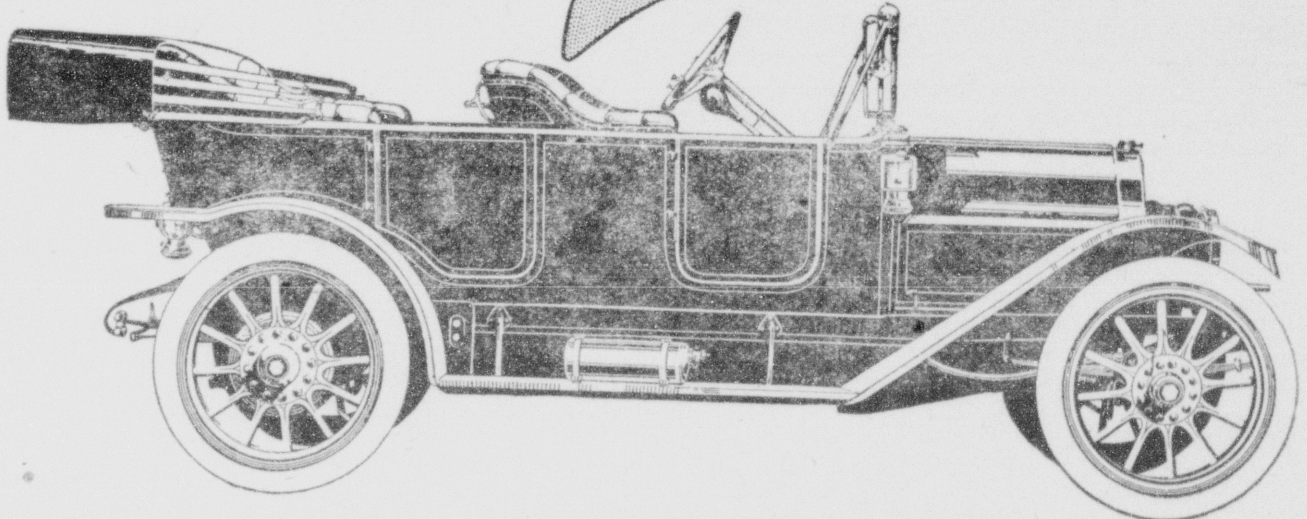

work of three, that the store, the theatre, the folks ten
miles away, have suddenly become your next-door
neighbors, that it has given a store of health to you and
your family.

Which automobile?

The Overland—because it is the best value that
money can buy.

Whatever your notions are as to what an automo-
bile should be to do justice to your requirements,
whether you value power, comfort, impressive appear-
ance, low cost of upkeep, or the kind of durability—
Overland durability—that makes the possession of a car
a source of downright satisfaction, you can't afford to
consider any automobile without first investigating the
new Overland.

At least come and take a look at it. Compare it
with others. Let us give you a ride in the big, fully
equipped Overland; it involves no obligation on your
part. Then draw your own conclusions.—That's all.

mon by the pastor, Rev. S. D. Hark-

led him all the way, from the very
cradle through a maze of thorns and
thorns, along rocky roads and
through stone walls to the place he
had made for him in saving a nation.

WITH the ordinary typewriter the day's work usually begins to tire the operator by three o'clock; the constant strike, strike, strike on the usual heavy-touch machine shows its fatiguing effect in mid-afternoon. But when the operator has the advantage of

Monarch Light Touch

there is neither three o'clock fatigue nor closing hour fatigue. The Monarch operator doesn't hammer the keys, she touches them. The mechanical principle exclusively incorporated in the Monarch completes the impression. A feathery touch starts it—therefore strength isn't called for and fatigue doesn't follow.

Letters written on the Monarch Typewriter are uniform in spacing, alignment and color.

In addition to the Monarch Light Touch, and the exclusive Monarch Rigid Carriage feature, every other important improvement of the modern typewriting machine, such as Back Space Key, Two-Color Ribbon Shift, Contained Tabulator, etc., will also be found in the Monarch. Let us demonstrate Monarch economy of strength, time and money.

WEBB LIQUOR BILL PASSED

Senate Adopts Measure Already Passed by the House.

SUBSTITUTE FOR KENYON ACT

Senator Hitchcock's Amendment Excepting Liquor Intended for Personal Use From Terms of Measure Is Voted Down.

Washington, Feb. 11.—The senate passed the Webb liquor bill, already passed by the house, as a substitute for the Kenyon-Sheppard bill.

The Webb bill would prohibit shipments of intoxicating liquors from one state to another when intended to be received or sold in violation of the law of the state to which shipment is made.

Friends of the legislation now will seek to have the house concur in the senate bill, which differs from the bill passed by the house only in number. Should that be done the bills would not be considered in conference, but the bill passed by the senate would go to the president for his signature.

The substitution of the Webb bill for the Kenyon-Sheppard bill came at the close of prolonged debate, and was by a vote of 54 to 46, a roll call being demanded.

Senator Sheppard had failed to get unanimous consent for the substitution of the Webb act for the bill of which he was a joint author. Senator Kenyon, co-author of the senate bill, closed the debate by asking that the Webb bill be substituted as the order of the day did not permit the voting on the Webb bill as an independent measure.

Amendment Accepted.

The voting was first on the perfection of the Kenyon-Sheppard bill. By a vote of 51 to 23 the senate agreed to the committee amendment adding a section to the bill which provided that intoxicating liquors should become subject to state laws upon crossing state boundaries.

Senator Hitchcock's amendment to except liquor intended for personal use was defeated without a roll call, and one by Senator O'Gorman to except liquor intended for personal or sacramental use likewise was defeated by 31 to 50. Senator Kenyon succeeded in having his measure amended to be operative July 31, 1913. There upon Senator Gallinger asked for the substitution of the Webb bill for the senate measure. He likewise succeeded in having the title amended so as to bring the houses in accord except as to the number of bills.

RECLAMATION SERVICE HIT

House Committee Finds Huge Fraud in Western Irrigation Projects.

Washington, Feb. 11.—A drastic indictment of the reclamation service of the national government on the charge of gross maladministration and inefficiency is contained in a report of the house committee on expenditures in the interior department. It is charged the government stands to lose more than \$100,000,000 on irrigation projects under way.

The report accuses government officials with having manipulated the construction of the Roosevelt dam and Salt river and the Gila river irrigation projects in Arizona to the detriment of the small farmer and the Indians and to the great profit of the land speculators, millionaire ranchmen, the Southern Pacific railroad and a Phoenix electric company.

Collusion between government officials and representatives of these wealthy interests is charged. The house is asked to appropriate \$25,000 for an inquiry.

Samuel Adams of Chicago, assistant secretary of the interior; Director Newell, and Supervising Engineer Lewis C. Hill of the reclamation service are severely criticised for decisions relating to the administration of the Arizona projects. The committee recommends that the president remove them from office pending the investigation, "to prevent possible obstruction of our progress by these officials."

Banker Charged With Contempt.

Washington, Feb. 11.—George J. Henry of New York, member of Solomon & Co., bankers, was indicted by the federal grand jury for contempt of a congressional committee, for refusing to tell the house money trust investigators the names of twenty-four bank officers who participated with profit in a syndicate operation in California petroleum stock. A bench warrant for his arrest was issued.

Milk Company Fined for Raising Price.
Minneapolis, Feb. 11.—The Minneapolis Milk company and A. R. Ruhnke its president, were fined \$3,000 each in the district court. The corporation and Mr. Ruhnke were convicted last week of having conspired with thirteen other firms and dealers to raise the price of milk in Minneapolis from 7 cents to 8 cents a quart in violation of the state anti-trust law.

SHE GAVE UP ALL HOPE

Physicians Failed To Help Mrs. Green, But She Finally Found Relief in Cardui.

Meets, Va.—Mrs. J. C. Green of this place, says: "I suffered with womanly troubles so that I could hardly sit up. Two of the best doctors in our town treated me, and I tried different medicines, until I gave up all hope of ever getting well."

One day, I decided to try some Cardui. It did so much for me that I ordered some more, and it cured me! Today, I feel as well as I ever did in my life.

The pains and the trouble are all gone. I feel like another person in every way. I wish every sufferer could know what Cardui will do for sick women."

A few doses of Cardui at the right time, will save many a big doctor bill, by preventing serious sickness.

It tones up the nervous system, and helps make pale cheeks fresh and rosy. Thousands of weak women have been restored to health and happiness by using Cardui. Suppose you try it. It may be just the medicine you need.

N. B.—Write for Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for Special Instructions, and 64-page book, "Home Treatment for Women," sent in plain wrapper, on request.
